**Endnotes:**

1. BSA’s trade loss estimates represent losses to U.S. publishers only, and differ from the BSA trade loss numbers generally released by that association which reflect losses to (a) all software publishers in that country and (b) losses to distributors/retailers in the country in question. This chart includes BSA’s finalized statistics for 2001.

2. Paraguay: RIAA reports that its estimated losses to the sound recording/music industry include both domestic piracy in Paraguay and estimated losses caused by transshipment.

3. Brazil: RIAA reports the 55% piracy level in Brazil for 2001 reflects an amalgamated rate; the level of audiocassette piracy is 99% and the level of CD piracy is 47%.

4. "GSP" means a GSP IPR Review is being conducted by the GSP Subcommittee; "GSP Petition" means that a petition is pending before that Subcommittee for its acceptance to initiate a Review.

5. "OCR" stands for "out of cycle review."
