**Endnotes:**

<sup>1</sup> BSA's 2003 piracy statistics were not available as of February 13, 2004, and will be made available in the near future and posted on the IIPA website at [www.iipa.com](http://www.iipa.com). BSA's statistics for 2003 will be finalized in mid-2004 and also posted on the IIPA website. BSA's statistics for 2002 were finalized in mid-2003, and revised figures are reflected above. BSA's trade loss estimates reported here represent losses due to piracy which affect only U.S. business software publishers in each country, and differ from BSA's trade loss numbers released separately in its annual global piracy study which reflect losses to (a) all software publishers in each country (including U.S. publishers) and (b) losses to local distributors and retailers in each country.

<sup>2</sup> ESA's reported dollar figures reflect the value of pirate product present in the marketplace as distinguished from definitive industry "losses." The methodology used by the ESA is further described in Appendix B of this report.

<sup>3</sup> "Total Loss" figures will appear on the IIPA website, [www.iipa.com](http://www.iipa.com), when BSA 2003 piracy statistics become available.

"GSP" means that the U.S. government is reviewing this country's IPR practices under the Generalized System of Preferences trade program.

"GSP Petition Pending" means that IIPA has submitted a petition before the GSP subcommittee for its acceptance to initiate a review.

"OCR" means out-of-cycle review to be conducted by USTR.
